MAKRAM MUSA **IBRAHIM**

PROFESSIONAL SUMMARY

Software Engineer with 3+ years of experience developing web and mobile applications. Proficient in React, Next.js, TypeScript, and React Native, with a strong foundation in Node.js, Python, and REST/GraphQL APIs. Proven ability to optimize complex codebases and deliver high-quality solutions.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript (ES6+), React Native, HTML5, CSS3, Redux, TailwindCSS, SCSS, Bootstrap, Three.js, GSAP, Responsive Design, Cross-Browser Compatibility

Backend & APIs: REST APIs, GraphQL, Python, Node.js, Firebase, Stripe, Shell Scripting

Testing: Jest, React Testing Library

Tools: Git, GitHub, Docker, Vercel, GitHub Actions, VS Code, Webpack, Vite, Figma, ESLint, Prettier

Methodologies: Agile/Scrum, CI/CD, Component-Driven Development

PROFESSIONAL EXPERIENCE

AI Expert Contributor: Generalist Expert, July 2026 - Current

Mercor, Remote

- Contributed to AI project work for Mercor clients, adapting quickly to shifting scopes, tools, and deliverables.
- Reviewed task guidelines and applied consistent judgment to maintain output quality.
- Interpreted project instructions accurately to complete assigned work with minimal revision.
- Flagged ambiguous cases for clarification to support accurate downstream decision-making.

AI Expert Contributor: DevOps, December 2025 - June 2026

Snorkel AI (via HireArt), Remote

- Designed and implemented multi-step, terminal-based software engineering tasks using Docker, Python, and shell scripting to evaluate and benchmark state-of-the-art AI agents' performance.
- Built containerized environments and verifiable task specifications to ensure functionality of agent-written code.
- Reviewed AI-generated outputs for accuracy, consistency, and guideline compliance.
- Labeled and annotated data across diverse tasks using established quality standards.
- Followed detailed instructions to complete routine assignments with precision.

Prompt Engineer, Data Annotation, October 2024 - November 2025

Outlier AI, Remote

- Trained LLMs to debug and refactor React, JavaScript, and TypeScript code, enhancing model output correctness and accuracy.
- Crafted prompts aligned with model guidelines to elicit accurate, relevant AI responses.
- Evaluated generated outputs for correctness, clarity, and instruction adherence.
- Refined prompt language to reduce ambiguity and improve response consistency.

Frontend Developer Intern, June 2024 - September 2024

Frontend Simplified, Remote

- Built production-ready React and Next.js applications from Figma designs using TypeScript and TailwindCSS.
- Built responsive web pages using HTML, CSS, and JavaScript following component-based design patterns.
- Implemented reusable React components to streamline interface development and maintain code consistency.
- Translated wireframes into functional user interfaces aligned with modern frontend standards.

Freelance Full-Stack Developer, January 2021 - May 2024

Fiverr, Remote

- Delivered full-stack web apps using React, Next.js, and Firebase, enhancing user engagement from UI to data layer.
- Built React Native mobile apps with custom UI features, enhancing performance and optimizing cross-platform user experience.
- Developed responsive web applications using React, Node.js, and RESTful APIs for client-driven freelance projects.
- Integrated third-party services and payment workflows to streamline platform functionality and user experience.
- Built and maintained database schemas, queries, and server-side logic for scalable application performance.

PROJECTS

Skinstric Website– Repo | Preview

Next.js, Three.js, TailwindCSS, GSAP, Optimized the 3D rendering pipeline and GSAP animations for smoother performance.

Summarist App– Repo | Preview

Next.js, TypeScript, Stripe, Built a full-stack subscription platform with user authentication, Stripe payments, and dynamic content delivery.

NFT Marketplace– Repo | Preview

React, JavaScript (ES6), CSS3, Optimized API integration and lazy loading techniques.

My Library App– Repo | Preview

React, JavaScript (ES6), CSS3, Built a scalable cart system with a responsive layout and dynamic state management.

EDUCATION

Frontend Simplified, Remote

Advanced Coding Bootcamp, Frontend Development

Coursera / Google, Online

Professional Certificate, IT Automation With Python

Judge Memorial High School, Salt Lake City, UT

High School Diploma
